*Città Metropolitana di Milano*

## REGULATORY EXPERTISE

Italian Consolidated Building Act  
(D.P.R. 380/2001)  
Environmental Code  
(D.Lgs. 52/2006)  
European Green Deal  
EU Taxonomy Regulation  
(EU 2020/852)

## Dear Hiring Committee,

I am writing to express my interest in contributing to your institution as a Senior Expert in territorial governance, sustainable development, and integrated project management.

My professional trajectory has been developed at the intersection of technical design, institutional advisory, and strategic territorial analysis. With an academic background from the Politecnico di Milano in urban planning and architectural design, I have progressively expanded my expertise towards a systemic understanding of spatial dynamics, integrating environmental, economic, and geopolitical dimensions.

In my current and previous roles, I have operated within public governance frameworks, including serving as Technical Consultant to the Court at the Tribunale di Monza and as Commissioner ad acta for the Città Metropolitana di Milano. These experiences have enabled me to manage complex decision-making processes, ensuring regulatory compliance while balancing institutional, technical, and socio-economic considerations.

My work is grounded in a thorough understanding of both national and European regulatory systems, including the Italian Consolidated Building Act (D.P.R. 380/2001), the Environmental Code (D.Lgs. 152/2006), and key European policy frameworks such as the European Green Deal and the EU Taxonomy Regulation (EU 2020/852). This regulatory literacy allows me to translate policy objectives into actionable strategies and implementable projects.

Beyond my institutional roles, I have led and coordinated multidisciplinary initiatives in urban development, environmental management, and infrastructure planning, adopting a multiscalar approach that connects local interventions with global transformations. My research activity further supports this perspective, focusing on the interdependencies between energy systems, territorial configurations, and geopolitical shifts.

I am particularly motivated to contribute to organizations that operate at the forefront of global challenges, where integrated thinking and cross-sectoral competencies are essential to address climate change, urbanization, and resource management. I bring not only technical expertise but also a strategic mindset oriented towards resilience, sustainability, and long-term impact.

I would welcome the opportunity to further discuss how my background and skills can contribute to your institution's mission and ongoing initiatives.

Thank you for your consideration.

Yours sincerely,

A handwritten signature in black ink, reading "Gianni Avanzi". The signature is written in a cursive style and is positioned to the right of the typed name "Yours sincerely,". The signature is set against a faint background of a circular emblem featuring a star and other symbols.
